VIDEO TIME Saint Patrick's Day In Belfast 2014

PART 1-2

Well, thousands of people took to the streets of Belfast earlier, as the city celebrated Saint Patrick's Day one day early.

PART 1-3

The skies may have been grey, but the streets were alive with energy and creativity.

“It took about three weeks to paint the thing, and then we added all these things onto it.” Hundreds thronged through the city centre as part of a carnival featuring time machines and even a flying De Lorian. Thousands watched on as the city celebrated Saint Patrick one day early.

“We've gone for the closest Sunday to Saint Patrick's Day so all the people in the city can participate because unfortunately Saint Patrick's Day isn't a public holiday. Some of our schools are in on Saint Patrick's Day and many of our people are at work.”

PART 1-4

And the soundtrack for the day: a specially-written song about Belfast.

Plenty of street dancing created rhythm while a lone pipe band added its sounds to the day.

The parade culminated at Custom House Square, where crowds were entertained by a mix of local and Asian dance.

PART 1-5

“So colourful, so green. Everyone is happy without being noisy, and everyone is just enjoying the party so it's great!”

“It's great, it's such a good atmosphere, good fun, you know, so... Everyone on form, and good weather as well – helps, you know, so...”

PART 1-6

“It's just been a really nice vibe to be honest, like, there's nice parades, face painting...”

“And Irish dancing. We've never seen that before. We will be back.”

“Yeah, definitely!”

There was also the opportunity for impromptu sing-alongs and the odd selfie before X-Factor's Shayne Ward took to the stage, as Belfast prepares to celebrate the Saint Patrick's Day spirit over two days.

And we have more on the parade and images of celebrations round the world on our website, plus we have a special Saint Patrick's Day programme tomorrow night at twenty-five to eleven.

Il élit une super équipe tous les ans. Cette équipe reçoit en récompense le Trophée « Vincenzo Lombardi » (en argent, celui-ci mesure 53 cm et pèse 35 kgs). Le client a toujours raison, il peut examiner la marchandise, il y a des livraisons à domicile et le personnel l'assiste. Grâce à l'ouverture

VIDEO TIME Homeplus Subway Virtual Store

PART 1-2

South Korea is a unique market. Tesco has been evolving itself adjusting to the local market. It even changed the name itself from Tesco to Homeplus. And at last it grew to rate number two in Korea. But Tesco had to overcome one obstacle, a fewer number of stores compared to the number one company e-mart. Mission: Could we become number one without increasing the number of stores? We made an in-depth study into Koreans once more. Koreans are the second most hard-working in the world. For them, grocery shopping once a week is a dreaded task so we decided to approach these busy and tired people.

PART 3

Idea: Let the store come to the people. We created virtual stores hoping to blend into people's everyday lives. Our first try was subway stations.

PART 4

Although virtual, the displays were exactly the same as actual stores from the display to the merchandise. Only one thing was different, you use smart phones to shop. Scan the QR code with your phone and the product automatically lands in your online cart. When the online purchase is done, it will be delivered to your door right after you get home. People can relax more after work and on weekends. "I like the way, it's exactly like shopping in the actual store."

Result: People can shop at Tesco Homeplus wherever they go without having to visit the actual store. Moreover we could change their waiting time to shopping time.

PART 5

After this campaign, online sales increased tremendously. Through this campaign, 10,287 consumers visited the online Homeplus mall using smartphones. The number of new registered members rose by 76 per cent and online sales increased 130 percent. Currently Homeplus has become number one in the online market and is a very close second offline.

VIDEO TIME Teenagers and Food

The Top 5 Food Mistakes Most Teens Make and How to Fix Them

PART 2

“Nutrition isn’t really important to me because I’m only fifteen.” – “It’s hard to have self-control when there’s that much junk food available to me.” – “I’m usually busy with being outside, playing sports and nutrition is really out of my mind.” – “I’ve never looked at a nutrition label once in my life.” – “I don’t usually look at the nutrition labels.” – “I buy fast food two, maybe three times a week.” – “I don’t eat healthy.” – “I think I’m sort of healthy but I can – I could do better.”

PART 3

- Deciding what to eat: it’s something we think about every single day of our lives, at breakfast, lunch and dinner and with various snacks throughout the day. What to eat? It’s a complicated question.

Why is it complicated? Because teens aren’t making smart choices about what they eat. The average teenager eats way too many overly processed foods and not enough healthy wholefoods.

- Bad food choices can lead to big health problems: obesity, diabetes, heart disease and more. Your health, good or bad, starts with what you eat.

PART 4

- That’s what this program is all about: understanding the top five food mistakes most teens make and how to fix them.

- It’s especially important for teenagers to make healthy eating choices. Your bodies are still developing and you’re working hard to get good grades and perform your best athletically. Good food will boost your energy for schoolwork, athletics, and just plain life.

PART 5

- Let’s get started. What’s the first mistake teens make when it comes to food? Not getting enough healthy stuff like fresh fruits and vegetables.

“No, I don’t like broccoli.” – “I do not like broccoli at all.” – “Spinach is all right.” – “I hate spinach, I really really hate spinach.” – “I don’t really like spinach in general but when I do I just kind of close my eyes and hope for the best.” – “The last time I had vegetables was probably, like, lettuce on my burger two or three days ago.”

- Research shows that most teens aren’t getting enough servings of healthy items like fresh fruits and vegetables.

- That’s a problem because fruits and veggies pack tons of important vitamins, minerals, nutrients and fiber.

- It’s really important for teens to eat a lot more fresh fruits and vegetables than they’re eating because they really can get a lot of their nutrients, their vitamins, their minerals, their antioxidants and it will help them feel more full when they’re eating more of those things than some of the other more calorie-dense or calorie-rich foods that they might be having. So how do you fix mistake number one? It’s simple really: add more fruits and vegetables to your daily diet.

Leur logo a évolué au cours des années. Au début, il représentait le drapeau britannique et le mot Reebok qui désigne une antilope en Afrique du sud. VIDEO TIME Samsung Commercial

Script de la vidéo

PART 1-2

The Samsung Galaxy S4 was about to revolutionize the handset market. A phone so highly specced that it would reinvent how we communicate. It was the next big thing in smartphone technology. The only problem was: coming from us, that kind of sounded like bullshit.

PART 1-3

We decided the best way to launch the Galaxy s4 was to get our fans to launch it for us. So we saved them from lining up outside a store and got them to line up online. Fans joined the smartphone line through Facebook and Twitter.

Every day for the two weeks leading up to the launch we gave them features of the S4 to promote through their social media network. The more their friends liked, reposted, retweeted, commented and shared these features, the further up the line they moved. To get the first S4 in the country all they had to do was get to the front of the line.

PART 1-4

The smartphone line was broadcast live to a massive electronic billboard, turning the virtual queue into a real-world line. The avatars moved and reacted like a normal line would. At night they would go under blankets and into sleeping bags, and when it rained they put up umbrellas.

PART 1-5

“What happens is I tell my friends and family about how great the new Samsung phone is and every time I do a little speech bubble pops out and people coming down here at Aotea Square can actually see what I’m talking about: the more I share it, the closer I got to the front of the line.”

PART 1-6

As a result twelve thousand people queued for two weeks. They spread eighty-five thousand stories to over three million people which had an organic reach of over fifteen million people. Since the Galaxy s4 launched, market share of the premium smartphone market has grown by twelve percent. Instead of leaving our biggest fans waiting outside a store for days, we turned them into our media channel and proved that the Galaxy s4 really is the next big thing.

VIDEO TIME Making of The Walking Dead: Stunts in Season 5

Script de la vidéo

PART 1-2

Stunt coordinator Monty Simons: This season it's bigger than all the other seasons put together. We're in for a wild roller-coaster ride. Choreographing a fight out here sometimes gets a lot more complicated than it will on a regular movie or television set. Probably the most difficult thing is finding the right type of stunt person to be a walker. We need our walkers to be emaciated, to be weak, skinny-looking people. Basically getting all the stunt people in line with the look of the show.

PART 3

The Walking Dead is very realistic.

Coach: The really silly kit you've got...snappy shoulders...[?]

Stunt coordinator Monty Simons: When you get shot on Walking Dead you drop straight to the ground. It's very specific. But we also want to push them because when we get out on the set it's not the easiest thing in the world. They have layers of make-up on, they've got clothes on, they're having to stand in a field and be baked by the sun all day long. We have to take the action up but yet keeping it realistic. It's having my doubles do it first, teaching our actors how to do it so it looks good. We'll set up each individual little fight between a walker and the actor then we'll move to the next one and we'll make sure they're not interfering with each other and then we'll add a third one.

Coach: Just imagine a string's holding you up and the string's been cut...

PART 4

Stunt coordinator Monty Simons: We have to sometimes get creative when it comes to their reactions and the timing of their reactions we have to do sound cues for them just to get them to take the hit at the right time. It can get a little overwhelming.

I'm not going to put people in a position that I'm not willing to go in myself or that I haven't been in before as a stuntman.

PART 5

There's going to be a lot more going on, it's something different, something you're not used to, all hell breaks loose.
